

# Interim Standard Facility Identification Data Elements

EPA's Environmental Data Registry Element	Data Element Definitions from EDR	EDR ID
Facility Identification Number	The non-intelligent, unique identification number (UIN) assigned to a facility or complex facility.	5763:1
State Facility Identification Number	The identification number used by a state to identify a facility or complex facility.	6123:1
Facility Name	The name of a facility or complex facility.	5720:1
Location Address Text	The address text that defines or describes the physical location of a facility, including urban-style address, rural address, or descriptive text where no formal address is available.	6187:1
Supplemental Location Text	The text that identifies a building where a facility is located, including secondary unit and number, or other supplemental locational information (e.g., industrial park name or installation name.)	6173:1
City Name	The name of the city, town, or village where a facility is located.	6175:1
State USPS Code	The U.S. Postal Service abbreviation that represents the state or state equivalent for the U.S. and Canada.	43:1
ZIP Code	The Zone Improvement Program (ZIP) code assigned by the U.S. Postal Service to geographic locations to facilitate mail delivery.	6179:1
ZIP + 4 Extension Code	The code that represents the geographic segment that is a subunit of the ZIP code and further refines the exact location of a facility.	6181:1
Mailing Address Text	The text that describes the exact address where a mail piece is intended to be delivered including urban-style street address, rural route and P.O. Box.	6183:1
Supplemental Address Text	The text that provides additional information to facilitate the delivery of a mail piece, including building name, secondary units, and mail stop or local box numbers not serviced by the U.S. Postal Service.	6185:1
County Name	The name of a U.S. county or county equivalent, as listed in FIPS Pub 6-4.	12:1
County and State FIPS Code	The FIPS Pub 6-4 code that represents both county or county equivalent and states of the U.S.	11:1

Tribal Land Name	The name of an American Indian or Alaskan native area where the facility is located, as listed by the 1990 Census.	48:1
Country Name	The FIPS Pub 10-4 name that represents a primary geopolitical unit of the world.	9:1
Latitude Measure	The geodetic coordinate that measures the position of a point on the surface of the earth relative to the equator.	5518:1
Longitude Measure	The geodetic coordinate that measures the position of a point on the surface of the earth relative to the prime meridian.	5520:1
Method, Accuracy, and Description Data (MADD) Elements	<i>The EDR contains a number of data elements that define the method, accuracy, and description data required under the Agency's Locational Data Policy (LDP). These data elements are being standardized as part of the effort to standardize Lat/Long data elements.</i>	<i>Assorted</i>
Facility Category Name	<p>The name of a category that represents the size and complexity of a facility. Permissible values are:</p> <p><b>Complex Facility:</b> Two or more single facilities that are functionally contiguous and are linked by common ownership/operation and common business purposes. A complex facility can exist when different operations are located at one site or similar operations are linked over distances.</p> <p><b>Single Facility:</b> A facility, located at one place with a contiguous boundary, at which a specific business function occurs.</p> <p><b>Facility Feature:</b> A specific object that is subordinate to a facility and is of interest to an environmental program.</p>	6125:1 <i>Permissible Values</i>
Program System Abbreviated Name	An abbreviated name that represents the name of an EPA program's information management system.	5712:1
Program System Identification Number	The identification number, including permit number, assigned by an information management system that represents a facility, waste site, operable unit, or other feature regulated or monitored by that program office.	5444:1
Standard Industrial Classification Code	The code that represents the economic activity of a company as specified by the Standard Industrial Classification (SIC) of Establishments.	5338:1
North American Industrial Classification Code	The code that represents an industry within the economy as specified in the North American Industrial Classification System (NAICS).	5851:1
DUNS Number	The Data Universal Numbering System (DUNS) number assigned by Dun and Bradstreet to a business establishment for which data has been entered into D&B's business information files.	5454:1
